where the magic begins

Which Needle?

The only suitable needle in my opinion for working most needlepoint projects is a tapestry needle. This blunt-tipped hand sewing needle has an elongated eye that's perfect for holding thick fibers or multiple strands of thread. The dull point of a tapestry needle makes it easy to slip through holes in the canvas.

- Remember the higher the number the finer the canvas.

Chenille Needles are smaller to tapestry needles but are sharper. They also have a larger eye and so they are best for couched threads and ribbon work.

Julia Snyder Nutcracker Class

November 9-Screen Class with Julia Snyder. One Day Class 200.00. This class is using Tony's Excalibar Stitch guide.

November 10- One Day only
Needlepoint Embellishment Class
with Julia 10-4 and Includes lunch.
You provide your canvas.

As a rule of thumb throw out your needle after each project.. They can become dull or get burrs that will snag your threads.

We have all types of needles for your projects!

Sept 10- Nantucket Bracelet Class. 125.00 for a Bracelet and 75 for the Fob..

I want to learn More Stitches!

Our On Line Needlepoint Class

We are partnering with Needlepoint Now to offer you SEVEN weeks of Needlepoint! Each class is two hours long, once a week in the comfort of your home! You get time with the instructor prior to class if you have a question about the prior weeks stitches.. Your choice of Monday day or Wednesday pm.. The Class is \$300.00. Call the store to register.508-428-4455
